

Values Sheet - New Patient Interview

Name _____ Date _____

Our dental practice is very different than the "average", the "ordinary" dental office. We place a high emphasis on helping you determine your present and future dental needs. We create a Personalized Dental Plan that is specifically tailored to your specific desires and needs. What follows are some questions that will help us discover what your desire and needs are. The questions may be about issues you have never thought about, but thoughtful answers will help us to understand your personal situation so we can create a plan suited perfectly to you.

1. How long has it been since you last visited a dentist?
2. What did you see the dentist for?
3. What did you like about your last dental office?
4. What did you dislike about your last dental office?
5. Tell us about any bad dental experiences in the past.
6. Tell us your opinion of your present state of dental health.
7. What qualities are you looking for in a dentist?
8. Do you have family or friends who come to our office?
9. What do you already know about our office and what are your expectations?
10. Has fear ever been an issue for you in a dental office?
11. Is time and/or cost a factor in getting dental treatment done?
